People in Need of Environmental Security

*Exemption 6*

Subject: GHI Invoice for PINES TAP Grant  
July 2008 through May 2009

Dear Bud,

As you are aware, GHI has continued to provide People In Need of Environmental Security (P.I.N.E.S.) with technical services related to the investigation of the Pines Groundwater Plume Site even though TAP funding was exhausted last year. Now that the Tap agreement has been amended to allow P.I.N.E.S. to apply for additional funding, P.I.N.E.S. requested and GHI has prepared the attached invoice that covers the period July 2008 through May 2009. During this period GHI performed reviews of the draft Remedial Investigation (RI) report, the revised draft RI, and the first, second and third iteration of the groundwater model report. We also participated in several meetings and phone conferences with EPA, the National Park Service, consultants for the PRPs, and had many conversations with members of P.I.N.E.S.

GHI labor expenditures in performing these tasks over the last year totaled 690 hours or \$86,262.50. Expenses of \$147.40 consisted of personal vehicle mileage to a meeting in Ft. Collins, CO with National Park Service personnel. This results in a total invoice amount of \$86,409.90. Almost half of the total effort was incurred during April and May of this year during the review of the revised RI report and most recent incarnation of the groundwater model. By necessity the effort required to uncover and bring out the myriad problems with the site characterization and groundwater models submitted to EPA was substantial.

GHI will work with P.I.N.E.S. to obtain payment of this invoice through the TAP. Thank you for your payment on the previous invoices and again, thank you for the opportunity to help out on this project. If you have any questions, please don't hesitate to call.

Sincerely,

Mark A Hutson  
Geo-Hydro, Inc.
